Quick Start Guide

This system splits your month into two parts: what you pay with Paycheck #1 and what you pay with Paycheck #2. It prevents overdrafts and stops bills from piling up.

How it works (5 steps):

1

List all bills and due dates on the Monthly Bills Map.

2

Assign bills due before the next payday to Paycheck #1.

3

Assign bills due after that to Paycheck #2.

4

Set aside a small amount for non-monthly bills (sinking funds).

5

Do a quick review after each payday and adjust.

Tip: If a bill due date is flexible, move it to match your paydays.

Monthly Bills Map

Write every bill you expect this month. Include amounts + due dates.

Bill / Company	Due Date	Amount	Paycheck #	Paid?

Paycheck #1 Plan

Use this plan for bills due before the next payday + essentials.

Paycheck #1 Take-Home		Date Received:	
Category	Planned	Actual	Notes
Housing / Rent			
Utilities			
Transportation			
Groceries			
Debt Minimums			
Other Bills (before payday)			
Savings / Sinking Funds			
Leftover / Buffer			

Paycheck #2 Plan

Use this plan for bills due after the mid-month payday + upcoming expenses.

Paycheck #2 Take-Home		Date Received:	
Category	Planned	Actual	Notes
Housing / Rent			
Utilities			
Transportation			
Groceries			
Debt Minimums			
Other Bills (after payday)			
Savings / Sinking Funds			
Leftover / Buffer			

Two-Paycheck Calendar + Review

Mark paydays + bill due dates. Then review what worked at month end.

Mon	Tue	Wed	Thu	Fri	Sat	Sun

End-of-Month Review:

• Did I pay every bill on time?	
• What category went over budget?	
• What can I move to the next paycheck?	
• How much leftover money do I have? (save / debt / buffer)
