Quick Start Guide

Annual bills aren't surprises—they're predictable. This planner turns yearly expenses into a monthly (or payday) amount so you're ready when the bill hits.

Setup in 5 steps:

1

List every annual or semi-annual bill (insurance, car taxes, holidays, memberships).

2

Write the due month/date and expected amount.

3

Use the calculator to find your monthly set-aside amount.

4

Set aside money each month (or each paycheck) into a separate bucket/account.

5

Track contributions and pay the bill with confidence.

Tip: Start with the biggest annual bills first—insurance + car taxes.

Annual Bills List

List your annual bills and due dates.

Bill / Expense	Due Month	Due Date	Amount	Notes

Monthly Set-Aside Calculator

Turn yearly bills into a monthly amount so you're ready ahead of time.

Annual Bill	Total Amount	Due Month	Monthly Amount	Payday Amount

Tip: Payday Amount = Monthly Amount ÷ number of paychecks per month.

12-Month Tracker + Reminders

Track contributions each month. Set reminders 30 days before due dates.

Bill	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

Reminder plan:

- Set a reminder 30 days before the bill is due, and another 7 days before.

Payday Funding Plan + Year-End Review

If you budget by paycheck, use this plan. Then review and prep for next year.

Paycheck	Amount to Set Aside	Where it goes (account/bucket)	Notes

Year-End Review (answer these):

- Which annual bills surprised me this year?
- Which bills increased?
- What monthly amount should I adjust for next year?
- Did I keep annual bills in a separate bucket/account?
