Know Exactly Where Your Paycheck Goes

Instant Download | Start in 10 minutes

- Paycheck Allocation Worksheet
- 50/30/20 Spending Guide
- Fixed vs Variable Expense Planner
- Paycheck Priority Order
- Leftover Money Tracker

Quick Start Guide

Follow these steps every payday to make sure you know where your money is going and you stay in control.

Steps (do these every payday):

1

Write down your take-home paycheck amount.

2

Allocate your paycheck using a spending system (like 50/30/20).

3

Pay fixed expenses first (rent, utilities, car payment, insurance).

4

Assign money to variable expenses (groceries, gas, spending).

5

Track what remains so you can save money or pay down debt.

Tip: Assign every dollar a job—then your paycheck stops “disappearing.”

Paycheck Allocation Worksheet

Fill this out each payday to allocate your money before you spend it.

Category	Amount	Note
Take-Home Pay		
Housing		
Utilities		
Transportation		
Insurance		
Debt Payments		
Food		
Savings		
Spending		
Remaining Balance		

Simple Paycheck Spending Guide

Use this guide to split your paycheck into needs, wants, and savings/debt.

Category	Description
Needs (50%)	Housing, utilities, groceries, transportation
Wants (30%)	Eating out, entertainment, shopping
Savings/Debt (20%)	Emergency fund, investing, extra debt payments

Tip: Adjust percentages as needed—your goal is a clear plan, not perfection.

Fixed vs Variable Expense Tracker

List your expenses and label them fixed or variable. This helps you find quick savings.

Expense	Type (Fixed/Variable)	Amount	Due Date

Leftover Money Plan

If money remains after bills, decide what it will do before it disappears.

Priority order:

1	2	3	4	5
Emergency savings	Extra debt payments	Long-term savings	Personal spending	Future bills buffer

Tip: Even small leftovers add up when you repeat this every payday.
